Once Pay Free Play

atmospheric
places

places supporting a healthy lifestyle FANSPOT

about **us**

Our aim is to meet the expectations of both artists looking for an alternative way to share their music, as well as venue owners who want the freedom of playing this music.

We are the licensors, publishers and distributors of specially selected music for public airplay, without the need to pay additional fees to Collective Management of Copyright (and related rights) organizations CMCs – GEMA, BIEM, ASCAP, SIAE, SACEM, CISAC, IFPI etc.

Our aim is to co-create places that provide the opportunity to recharge the inner battery. Atmospheric Places - places supporting healthy lifestyles where you can stop and rest. Places where music creates a special atmosphere for your pleasure, setting the scene for unforgettable meetings with friends.

feel the revolution

who is
OncePayFreePlay
for?

If you're looking for a solution making it possible for Artists to share and earn revenue from their work without Collective Management of Copyright (and related rights) organizations (CMCs) then the OPFP license is perfect for you.

why the
OPFP license?

payments for the public airing
of music are proportionately divided
between Artists whose music
is broadcast by radio stations

The OPFP license gives you an opportunity to receive revenue for public airing even when your music is not played on the radio. Our idea in creating the OPFP license is based on a mutual respect between the User and the Artist.

this rule asserts
that once music is purchased
with our OPFP license,
the User **doesn't pay**
any extra royalties to CMCs
for the public airing of this music

once pay
free play

what makes us **special**

- We provide Artists with a comprehensive service in the field of licensing, publishing and distribution through FANMEDIA, the exclusive OPFP license representative.
- We enable the dissemination and the earning of revenue for a particular piece without CMCs, based on our proprietary OPFP license.
- Depending on the needs and expectations, there are 3 types of OPFP license to choose from – PERFORMANCE :: BROADCAST :: PRODUCTION
- An OPFP license is based on one simple rule: You pay only once and you're free to play a piece of music without paying any extra fees to CMCs.
- OPFP guarantees that Artists will be paid for a licensed work, as we work with them directly.
- We don't restrict Artists' access to other forms of licensing and distribution, so long as they don't interfere with areas in which OPFP is effective or in any other way restrict the execution of conditions of the agreement and license.
- We don't support mainstream music as we want to offer an alternative and the opportunity to find high-quality music other than that aired on major radio stations.

feel the revolution

join Artists
already under
OPFP license

Now you have the chance
to focus on what you love
the most... creating music.
**Do you want to share your
work under OPFP license?**
You want access
your listeners through
a one-of-a-kind distribution
network? **Don't wait!**
Feel the revolution.

OncePayFreePlay

how it **works**

- We only publish music in high quality. In our collector's version, CDs include digipak packaging, with UV varnish and are numbered. Minimal issue: 1000 pcs.
- We cover all publishing costs – graphic design, pressing, marketing.
- Collection of proprietary compilations composed of uniquely chosen music – Atmospheric Places and Chill & Lounge. Exclusive distribution.
- Online sales through our own online store. CDs in digital versions in FLAC format.
- Distribution through our network of FANSPOT Atmospheric Places partner venues – cafes, restaurants, vegan bistros etc. promoting healthy lifestyles.
- We promote the idea of Atmospheric Places – places with healthy food and amazing music – places perfect for rest and relaxation, and spending time in a pleasant and positive atmosphere. Music expertly links all these facets.
- Atmospheric Radio complements our CD collection – available free (for the first 12 months) for CD buyers and offered as a subscription for other clients.
- Organizing concerts in places airing music as part of an OPFP license.
- We offer simple and transparent rules with regards to accounting based on quarterly sales reports based on commission.

music knows
no compromise

**connecting
through music**

Ambient, atmospheric, lounge, chillout, balearic, electronica, downtempo, acoustica, jazz... genres of music that require special care with regards to sound quality. Now your music can, too, be available in the highest quality on CD and digital audio files in FLAC format. The quality of sound always matters to us, because the music knows no compromise.

we support
**a healthy lifestyle
with music**

we promote the idea of
Atmospheric Places –
places with healthy food
and amazing music
